DIARY NOTES

ADD/A

17 June 1952

1. Spent an hour with Ed Saunders in the Fiscal Division. I was rather surprised to learn that [REDACTED], is the only field activity which submits to the Comptroller estimated obligations of vouchered funds which are incurred locally. The Comptroller states that attempts to get this information in the past have met with failure; however, with the new procedure for field obligation reporting on unvouchered funds completed he is prepared to take prompt action in solving this problem too.

3. Approved of the publication of a brief Notice announcing the Director's approval of the Career Service Program.
